JAYANTH C

Full Stack Developer | AI & Data Enthusiast

+91 8088912064 | iconicno18@gmail.com | LinkedIn: jayanthc18 | GitHub: JayanthC6

TECHNICALSKILLS

Languages: Python, Java, HTML/CSS, Javascript, MySQL

Frameworks: Flask, React.js

Tools: Git, Canva, Excel, Tableau

EXPERIENCE

AI/Machine Learning Intern | AISECT Ltd., Bengaluru Dec 2023 – Mar 2024

• Applied supervised learning techniques on real-world datasets, including preprocessing, model training, and evaluation.

• Strengthened AI/ML foundations through hands-on projects and industry practices.

PROJECTS

Neurosymbolic AI for Explainable Brain Tumor Diagnosis (Flask, TensorFlow, OpenCV)

• Built a hybrid neurosymbolic AI framework combining CNN-based image analysis and rule-based reasoning for transparent brain tumor diagnosis.

• Integrated Grad-CAM interpretability to visualize model attention regions, achieving 96% accuracy and improved explainability.

Smart Attendance Tracker (Flask, MySQL, HTML/CSS, Bootstrap)

• Developed a web-based attendance system with secure login, subject-wise tracking, and admin/student access.

• Automated attendance updates and analytics, improving efficiency and data accuracy.

EDUCATION

Bangalore Institute of Technology Bengaluru, 8.78 CGPA
Master of Computer Applications *Dec 2024 – June 2026*

Vasavi Education Trust (VET) Bengaluru, 8.60 CGPA
Bachelor of Computer Applications *Oct 2021 – Sept 2024*

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Foundations Associate – Oracle, 2025
- Introduction to Cyber Security – Cisco, 2025
- Python Foundation Certification (Infosys Springboard)
- Programming Using Java (Infosys Springboard)
